Este posibil ca unele cursuri să necesite o "cheie de înscriere" de care deocamdată nu ai nevoie. Iată pașii ce trebuie parcurși pentru crearea contului: Completează formularul <u>Cont nou</u> cu datele tale. Un e-mail va fi trimis imediat la adresa e-mail oferită. Citeşte mesajul primit, și apasă link-ul web conținut. Contul tău va fi validat și vei putea pătrunde în site. Acum, alege cursul la care vrei să participi. Dacă ți se cere o "cheie de înscriere" - folosește-o pe cea primită de la profesorul tău. Astfel te vei înscrie la curs. Acum poți accesa cursul complet. De acum înainte va trebui să introduci doar numele de utilizator și parola (în formularul de pe accestă pagină) pentru a intra în site și a accesa cursurile la care te-ai înscris.

VI. Let's surf with Moodle!

ABSTRACT

One of the schools where Microsoft Romania and Save children have launched the campaign "Young people are safe on the Internet" is our school, School No. 28.

I have used this opportunity to show you an example of applying the knowledge you need in order to access an online platform of the Moodle. Moodle is excellent in facilitating adult learning.

As adults in general educate the young generation, they have to be familiar with some important unwritten rules which ensure safe surfing on the Internet.

Having view that Moodle is a highly accessed platform, I thought it would be welcome to share with our project partners our experience, concerning both children's and adults safe use the Internet.
